

You've mastered your subject. Now show it.

The GRE[®] Subject Tests are achievement tests that offer a perfect way to showcase your knowledge in a particular discipline — which can give you an edge when applying for admission to graduate school.

The GRE Subject Test scores are accepted by thousands of graduate schools, including individual departments or divisions within these schools. These scores are often considered in addition to admission requirements — such as your undergraduate record and letters of recommendation as well as GRE[®] General Test scores — providing another way to help you stand out from other applicants.

GRE Subject Tests

Each GRE Subject Test is intended for students who have an undergraduate major or extensive background in one of these disciplines.

- Chemistry
- Mathematics
- Physics
- Psychology

Test Content and Structure

The GRE Subject Tests are administered in a paper-delivered format. Total testing time is two hours and 50 minutes. There are no separately timed sections.

Test Dates and Locations

GRE Subject Tests are administered at test centers throughout the world up to three times a year in the months of September, October and April.

FREE, Official Test Prep

When you register for a GRE Subject Test, you will receive a FREE, official practice book that describes the test in detail and contains a full-length practice test to help you do your best. You can also download these practice books from the GRE program website at any time.

ScoreSelect[®] Option

The ScoreSelect[®] option lets you put your best scores forward and send schools only the scores you want them to see! More information about this and other score reporting options are available on the GRE program website.
